Welcome to ICA

Integrated Childrenâ??s Academy (ICA) is a tradition for many families in Jakarta. Recognized as a superior early childhood center, ICA is more than just a school â?? it is a second home for our families.

By partnering closely with parents, we nurture positive values and strong character at home and at school. Through our innovative, creative, and academic programs, children develop the confidence, curiosity, and capability they need for lifelong learning and future success.

Our dedicated team understands how important this choice is for families. ICA is committed to continuing its long-standing tradition of excellence and providing the very best early childhood education experience.

Why ICA

At ICA, we provide expert-led programs designed to enhance socialization, creativity, self-esteem, and academic success. Our teachers are deeply committed to nurturing each childâ??s mental, physical, and emotional growth, believing every child is unique and deserving of personalized attention.

Our Educational Approach

How Young Children Learn at ICA

Children learn best through active discovery and meaningful experience. At ICA, learning happens through:
